

September 2007

GMP recognised by the Singapore Children's Society

This year, GMP received the Silver Award by the Singapore Children's Society, in recognition for its contributions to the charity organisation and to Singapore's children. Last year's charity event by GMP raised \$15,000 in funds for the Singapore Children's Society.

In congruence with GMP's vision of 'Shaping Destinies', Career Architects under GMP's Career Advisory division organised "Bright Future Workshop", a program to help raise students' awareness on the importance of education and career-planning. Children from the Singapore Children's Society were also invited to attend the workshops free-of-charge to inspire them with realistic advice so that they may one day break away from the poverty cycle.

CEO, Annie Yap, receiving the Award by President S. R. Nathan

Accepting this prestigious award reinforces GMP's humble pride in the knowledge that its efforts have a meaningful end, spurring the company on to engage in future endeavours in the same spirit.
